Draft Kit

Version #00082426

A few things to do before the draft and during the draft: **1)** Get a player list. The best way is to go online; there are many good sites out there. Avoid Fantasy Football magazines as they are written and printed too early. You can already cross off players that have been franchised or taken as expansion picks. By crossing off players as they are taken, it will speed up the draft. **2)** Keep track of the players that you have taken and when their bye weeks are, this way you get the right amount at each position and “good” back-ups. **3)** Be thoughtful of other teams when talking about players. Try not to give too many hints about “sleeper” type picks out loud. Help is ok, but try not to do it loudly. **4)** Bring your league fees or pay on the website. **5)** If you are drafting “online” email this info to FreedomFootball@gmail.com.
